# Resource Page

## Some tips for creating an effective CV

*You want your CV to have a link to your LinkedIn account and your portfolio site so recruiters can immediately see what you've accomplished.*

*Add the logo of the companies you have worked in. Link their website or LinkedIn profiles too. Write a short description of what the company does if they are not well known.*

*Remember to add how long you have stayed in a particular role. Write out the years and months. Example: Jan 2020 to June 2022 (2 years and 5 months).*

*When writing out your achievements and responsibilities for a job, it is ideal to follow this format: "I have achieved X by doing Y with a result of Z." Quantitative information is highly preferred.*

*Only list skills you are confident in and are relevant to the job. You may also list specific software or tools that are important to the role.*

*Adding your photo to a CV is optional.*

*Photos help recruiters remember you, but there is a risk of unconscious bias.*

*Adding volunteer work and other interests is optional. Information under this section may seem irrelevant but it can build rapport with recruiters.*

*Do not crowd your CV. Feel free to use a second page, which usually features your educational background and other achievements and awards.*

*Ensure that the CV's design aesthetic matches the job you are applying for. For creative roles, you may prefer CVs with a touch of color. For more corporate roles, go for a more simple design.*

*Having a list of references is no longer required in CVs. The same goes for a summary or objective section.*

### What recruiters usually look for in a CV (in order of importance)

- Experience
- Role or Title
- Company's Credibility
- Results, Responsibilities, Achievements
- Portfolio
- Contact Information
- Skills & Relevant Software
- Educational Background
- Volunteering and Other Interests

### Important

Download your CV as a PDF. Do not use docx, png, or jpg since an applicant tracking system may not be able to properly display the file or scan the text.
